

Future Engineers Parent Consent Form
PARENT INSTRUCTIONS

Hello!

FutureEngineers.org is an educational website where K-12 students compete in challenges, submit designs online, and build an innovation portfolio. All challenges are free for student/classroom participation and we are excited for your child to participate with the following class:

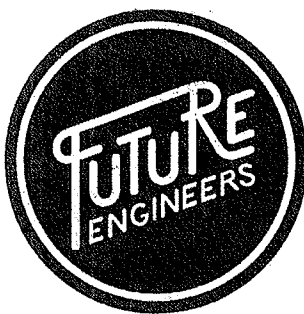

Earth Systems
4NVDPV

In order to permit your child to be eligible for prizes in Future Engineers challenges, we need your permission and agreement to the Future Engineers Official Rules and Terms of Service.

The Official Rules are presented in two places. The General Rules apply to all challenges and are available here. In addition, the Challenge Rules outline specific requirements for each challenge and can be found on the individual challenge pages. By allowing your child to enter a challenge and agreeing to the Official Rules, you are agreeing to both the General Rules and Challenge Rules for each challenge in which your child enters.

The Terms of Service are the conditions for use of the Future Engineers site. By agreeing to the Terms, your child's account will remain actively registered on the Platform. Your agreement will allow your child to build their innovation portfolio by entering class challenges under the direction of their teacher or by entering personal challenges under your supervision.

Please fill out the requested information on the following page to give your permission and agreement and return it to your child's teacher. We will only use your information and your child's information in accordance with our Privacy Policy, including notification when your child is a prospective winner in a challenge.
